*Allowable Subject Matter*

Claims 14-29 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art does not teach or suggest a method for recycling a silver stained DNA detection chip having bound nanoparticles, said method comprising the steps of:

- (a) providing an etching solution;
- (b) contacting the chip with the etching solution for a time sufficient to remove the silver stain; and
- (c) washing the etching solution away from the chip so as to produce a recycled chip for subsequent reuse in a nucleic acid hybridization assay, as in the context of claim 14.

The closest prior art, admitted prior art and Dapkus, teaches a method for recycling substrates for solar cells, glass mirrors and plasma flat panel displays. However, there is no motivation to use the method of Dapkus for recycling a silver stained DNA detection chip to remove silver and not damage the chip so that it can be reused in a nucleic acid hybridization assay, as in the context of claim 14.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
